

EDEN SUSTAINABILITY DECLARATION

We acknowledge that:

- ❖ Scientific evidence shows that finite resource depletion and climate change are occurring, and that the current economic activity is unsustainable.
- ❖ Global resource depletion and climate change will likely have far reaching effects on people and places, economies, societies and habitats.
- ❖ Sustainable fish populations are integral to healthy ecosystems and a more sustainable planet.

We welcome:

- ❖ The social, economic and environmental benefits associated with more sustainable business activities.
- ❖ Evidence-based research and development which helps to identify ways in which the angling trades can become more sustainable.

From this date _____ we voluntarily commit our organisation to:

- ❖ Design out waste in all new product development;
- ❖ Reduce greenhouse gases and other negative environmental impacts;
- ❖ Reduce carbon-based (non-renewable) energy use;
- ❖ Increase resource efficiency and material recycling
- ❖ Work collaboratively with our supply chains on sustainability initiatives;
- ❖ Promote the responsible use of our products and services; and
- ❖ Monitor our progress against these commitments.
